**For Career Information with National Organizations:**

Organizations and associations will depend on the focus of your degree.

Current as of Fall 2015

Provided by:

[The Academic & Career Advisement Center](http://www.nmu.edu/acac)
Students may be admitted to the program if they submit records verifying that they have met the standards for admission to baccalaureate programs listed in this bulletin. After admission to the program, students must complete at least 16 more credit hours, regardless of the number of hours already completed. A “C” (2.00) average must be maintained for all program courses.

Your options are as flexible as you are, but don’t forget to do well in your classes and try to gain experience through an internship as they will help you appear attractive to potential employers.

This degree program parallels in content the core curriculum requirements at many colleges and universities. Its requirement of two courses in each of four content areas (foundations of communication, foundations of humanities, foundations of mathematics/sciences and foundations of social sciences) provides students with the basis for later, more specialized work. The program also enables students who are uncertain about career plans to sample various courses and determine which areas of study appeal to them most. These areas may then be explored further through electives carefully chosen in cooperation with the program director.

In most fields, strong interpersonal communication and organizational skills are a must for any professional. Valuable skills and competencies will vary depending on concentration and career path chosen by the student.

You should begin the resume-building process as soon as you can. The Academic and Career Advisement Center can assist you with career planning, while Career Services will help you fine tune your resume and look for jobs related to your field. In the meantime, the more hands-on experience you have, the better the chances are that you will find a job. Becoming involved in a professional related internship is a way to develop your professional skills and gain experience. Your academic course work is important as well, so be sure to maintain a high grade point average.

This degree’s courses are dependent upon the candidates specific program electives, however, the following courses are required for all:

**Core**

**Liberal Studies**
EN 111 College Composition I (4 cr.)
EN 211 College Composition II (4 cr.)

**Health Promotions (1 cr.)**
HP 200 Physical Well Being (1 cr.)

**Humanities Electives (8 cr.)**
Must be from more than one discipline.

**Natural Science/Mathematics Electives (8 cr.)**
Must be from more than one discipline; one course must be a laboratory science.

**Social Sciences (8 cr.)**
Must be from more than one discipline.

**Program Electives (31 cr.)**

Detailed course descriptions can be found at www.nmu.edu/bulletin.

Additional Considerations

Students may be admitted to the program if they submit records verifying that they have met the standards for admission to baccalaureate programs listed in this bulletin. After admission to the program, students must complete at least 16 more credit hours, regardless of the number of hours already completed. A “C” (2.00) average must be maintained for all program courses.

Job Outlook

Again, your options are as flexible as you are, but don’t forget to do well in your classes and try to gain experience through an internship as they will help you appear attractive to potential employers.
