Potential Careers

NMU’s Surgical Technology Program prepares students for employment in the following careers:

Occupations

- Dental Assistant
- Medical Hospital Assistant
- Outpatient Care Giver
- Physician Assistant
- Surgical Assistant

Surgical Technology

This program prepares graduates to assist the surgeon and other members of the operating room team. Duties may include such tasks as setting up sterile trays and equipment for procedures; scrubbing for procedures with the surgeon; draping patients, passing instruments, and holding retractors; sterilizing instruments and supplies; and maintaining stock inventory. The program consists of theory and practical experience in the operating room setting. Courses must be taken sequentially and include summer school. Graduates are qualified to take the National Board of Surgical Technology and Surgical Assisting national certification examination.

Surgical technologists with additional training and certification may serve additional roles within the operating room. These may include a variety of duties as prescribed by the surgeon on duty. Some workers are assigned specific duties such as a Hemostasis technologist who controls blood to prevent hemorrhaging. Other technologist meet with the patient before the surgery and prepare them for the operating room. There are many individual jobs that can be fulfilled by a surgical technologist.

Skills and Competencies

Surgical Technicians work in many different capacities in the surgical field. The main responsibility of the Surgical Technologist is to open, organize, and maintain the “Sterile Field” and provide the necessary equipment and instrumentation for the Surgeon to perform the operation. They also may be expected to assist the surgeon on some procedures. Applicants into the field will have to be able to work well under pressure and often times tense situations.

Course Work

This degree includes the following courses as part of the program requirements, and specific major requirements along with liberal studies and graduation requirements.

**Surgical Technology Core**
- CLS 204 Clinical Microbiology (2 cr.)
- ST 101 Clinical Assisting (1 cr.)
- ST 111 Basic Surgical Concepts and Techniques (3 cr.)
- ST 211 General Surgical Procedures (4 cr.)
- ST 212 Specialty Surgical Procedures and Pharm. (4 cr.)
- ST 220 Issues & Seminar for Surgical Technology (2 cr.)
- ST 250 Clinical Practice (2 cr.)
- ST 260 Surgical Technology Practicum (14 cr.)

**Other Required Courses**
- BI 201 Human Anatomy (3 cr.)
- BI 202 Human Physiology (5 cr.)
- Chemistry Course above CH 100 (4 cr.)
- CLS 109 Introduction to Diagnostic Sciences (1 cr.)
- HL 242 Emergency Health Care (2 cr.)
- OIS 171 Medical Terminology (4 cr.)

Detailed course descriptions can be found at [www.nmu.edu/bulletin](http://www.nmu.edu/bulletin).

Career Development

You should begin the resume-building process as soon as you can. The Academic and Career Advisement Center can assist you with career planning, while Career Services will help you fine tune your resume and look for jobs related to your field. In the meantime, the more hands-on experience you have, the better the chances are that you will find a job. Becoming involved in a professional related internship is a way to develop your professional skills and gain experience. Your academic course work is important as well, so be sure to maintain a high grade point average.

Additional Considerations

Surgical Technology is an Associate of Applied Sciences that requires 64 credits to finish. This is designed as a four semesters program.

An associate degree is required as the minimum for entry into the field, but a bachelor’s or master’s degree may be required for additional advancement, requirements and benefits.

This degree can be used towards the Clinical Health Science bachelor’s degree.

Job Outlook

Surgical Technology is expected to grow at a much faster than average rate in the coming years. The field figures to expand at a 30% rate. Advances in medical technology have made surgery safer, and more operations are being performed. The median salary for this position is $41,790.
