2512 West Science - #2450
Pre-Engineering

Career Tracks provide you with sample paths to follow on the IDEAL career path. There are six Career Tracks brochures, and each is based on one of the personality types created by career theorist John Holland, Ph.D. His personality type system is the model for our occupational type Career Tracks that can aid you in identifying majors and careers. Career Tracks also suggest avenues for gaining insight to careers through internships, volunteering, and participating in student organizations.

More than likely, you will discover that you identify with more than one occupational type; this is a natural occurrence considering that occupations listed in the Career Tracks brochures are categorized by a combination of types. In fact, it is good to identify two to three possible types to explore. This way you can identify and determine which type fits your personality more specifically.

**You May Be REALISTIC**

**IF YOU ARE:**
practical, straightforward, mechanically inclined, persistent, conforming, thrifty

**IF YOU CAN:**
fix electrical things, solve mechanical problems, operate tools and machinery, repair cars, build things

**IF YOU LIKE TO:**
work with machines, make house repairs, be physically active, use your hands, work alone, work out-doors

Then Use Career Tracks to Explore These Possible Career Areas

Aircraft Mechanic
Air Conditioning Installer
