**Research in Progress Grade Policy**

*Students may receive a Research in Progress ("R") grade in a course where the primary focus is research, such as a thesis. The student has a maximum of three years from when the R grade is issued to complete the course requirements. Faculty may designate a deadline of less than three years if deemed appropriate. Failure to complete the specified work within the designated time frame will result in an "F" or "U" grade for the course. The instructor, upon receiving and evaluating the completed work, will record the appropriate grade ("A" through "F," "S" or "U") prior to stated deadlines. Students who have an "R" grade and not currently enrolled in other courses and are actively using university resources (advising, library, etc.) must register for GD 593 for continuous enrollment. Students who plan to graduate the semester the "R" grade is complete and not taking other courses should also register for GD 593.*

Graduate faculty status for 13 faculty.

Approval of the Psychology – Training, Development, & Human Performance Program changes.

The Graduate Programs Committee (GPC) report 2 of March 26, 2013 recommends:

Graduate faculty status for 6 faculty.

Approval of the Masters in Criminal Justice proposal.

Approval of the Masters in Individual Studies proposal *(Information Only)*.

4. The Ad Hoc Calendar Committee report of April 23, 2013 recommending that the Academic Senate adopt academic calendars for the following academic years: (1) 2014 – 2015, (2) 2015 – 2016, and (3) 2016 – 2017. (Rules were suspended to move to the second reading.)

i. Speech, Language Hearing Sciences is a program within the Clinical Sciences Department. Students in this program must pursue graduate work in this field to complete training as a speech-language pathologist or audiologist. Admission to graduate programs is very rigorous. The department has identified that the 2.0 GPA is no longer realistic for Speech and Language undergraduates in order for them to have a competitive GPA as seniors when applying to graduate schools.

ii. This proposal is to use the overall grade point average reported by the high school to determine if the student meets NMU’s minimum high school GPA requirement for admission. If weighted and unweighted GPAs are reported, NMU would use the highest GPA. If reported GPA is not on a 4.0 scale, NMU admissions would convert to a 4.0 scale.
