Star Trek
Problem provided by the Editor
In the grid, how many paths are there from A to B? You may only travel to the right along horizontal edges, and downward along the slanted edges.

NMU undergraduates may submit solutions to the Mathematics and Computer Science office, 2200 Jamrich Hall, by noon the last day of a month. Include your name, ID student, and whether you have completed Calculus 1 (MA 161) or higher. Sorry no fax or email submission.
