Human Services
Career Pathway Interactive Videoconference

Careers in this path are related to economic, political and social systems. These include education, government, law and law enforcement, leisure and recreation, military, religion, child care, social services and personal services.

Teaching Industrial Technology

Date: November 9th & 30th  
Time: 08:00 - 12:00 (50 min)  
Location: Your Distance Learning Classroom

Host: Instructor Mike Turino

Presenters: Seniors Mark Koski, Mike Nicosia, Eric Prostka, Andy Stone, Education Department, Northern Michigan University

Topic: Do you enjoy your Industrial Arts classes? Do you like making projects in wood shop? How about auto mechanics, building trades, metal shop and welding? These are classes that a lot of us like about high school.

Have you ever thought of continuing your interest of industrial arts after you graduate from high school? Did you know that you can do this and make a good living at it too? The way to do it is by going into the field of teaching. How about considering a career as an industrial arts teacher? This presentation will tell you how you can make that happen in a relatively short amount of time.

Background: The total presentation usually lasts 20 - 30 minutes and culminates in a 20 – 30 minute Q&A period. We try to be as flexible and interactive as possible.
