WELCOME TO NMU

PRINTABLE GRAD PARTY FAVORS
Congratulations on your high school graduation! This is a tremendous accomplishment and we are so excited for you. Show off your post-graduation plans with these NMU-themed cutouts for you to use at your graduation party or other celebratory event.

We recommend printing these pages on card stock or a heavier weight paper. This can be done either at home or at a local or online print and mail shop or retailer. These pages should be printed single-sided.

Please share your creative use of these props and decorations using the hashtag #shareNMU.
**NMU SUNGLASSES**

1. Cut along the dotted lines.

2. Tape the flaps at the edge of glasses to the flaps at the edge of the temple piece. See 2.5 for visual aid.

2.5.

#SHARENMU
### NMU Bowtie

1. Cut along the dotted lines.

2. Poke holes through the two pairs of white holes.

3. Run string or a rubberband through the back of one hole and then through the front of its pair. Bring it around through the back and do the same for the other pair of dots, then tie off around the neck. See 3.5 for visual aid.

### Instructions

- **1.** Cut along the dotted lines.
- **2.** Poke holes through the two pairs of white holes.
- **3.** Run string or a rubberband through the back of one hole and then through the front of its pair. Bring it around through the back and do the same for the other pair of dots, then tie off around the neck. See 3.5 for visual aid.

---

**3.5.** Visual aid for tying off the bow around the neck.
1. Cut out shape following the dotted lines around the perimeter.
2. Cut out dotted lines that make the eye holes of the mask.
3. Attach a stick behind one side of Willy’s mustache, or put a string or band through the pairs of holes, like the bowtie.
1. Cut out “N” shape following the dotted lines around the perimeter.

2. Fold all white dotted lines at the base of the “N” to make the stand and back rest. See 2.5 for visual aid.

2.5.
1. Cut out “N” shape following all dotted lines.

2. Fold triangle tab down in center of the “N” this will help keep the two N’s perpendicular.

3. Connect the two “N” shapes by sliding the two shapes together by the vertical cut in the middle of the two shapes. See 3.5 for visual aid.
Fold here once shape is completely cut out.
