

Create a Photo Roster

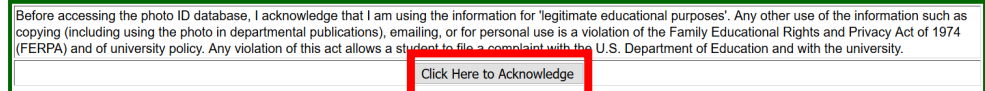

1. Go to myweb.nmu.edu/faculty and log in with your NMU credentials (this is the same place as you do the EduCat course requests).

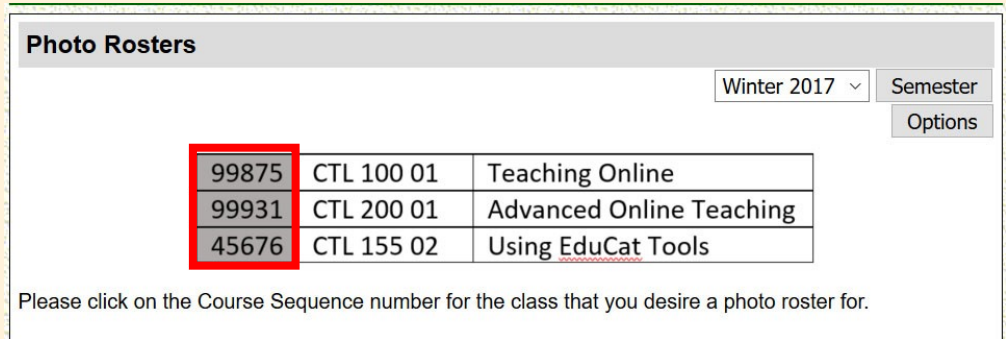

Click on **Photo Rosters**.

2. You will be asked to read and acknowledge privacy policies. Please read and **Click Here to Acknowledge**.

3. Ensure you are in the correct semester with the dropdown menu in the upper right corner. From the provided list, choose the course you wish to create the photo roster by clicking on the CRN.

3. A photo roster will then be generated. The photos are pulled from student IDs and match the pictures from EduCat.
