

Modeling Instruction Workshops!!!

Summer 2018

We believe that Modeling Instruction is the best conduit to the vision of the new (NGSS-based) Michigan Science Standards (MSS). In partnership with the American Modeling Teachers Association (AMTA) we have worked to tune and enhance the workshops so that materials are well aligned to our new standards, providing teachers with resources they can take right into their fall classes. Past participants provide effusive testimonials saying that their practice has been forever transformed and that the quality of student thinking and engagement is unprecedented. We are funded by the MI-STEM Advisory Council & MSP grant.

OTHER BENEFITS

- Stipends for participation at \$100 per day, hotel costs (if applicable), and some mileage
- Grad credits: Madonna University (up to 6 for 15-day workshops/4 for 10-day/cost: \$150/credit)
- SCECH (up to 90 for 15-day workshops, 60 for 10-day workshops)
- Strong connections to a growing community of Michigan Modelers (nearing 1000 so far!)
- One Year AMTA Membership for first time Modeling participation
