

# COLLEGE OF ARTS AND SCIENCES REQUEST FOR SUPPORT FOR PROFESSIONAL DEVELOPMENT FOR PROFESSIONAL STAFF

In the College of Arts and Sciences each department/center in conjunction with the College Office provides professional development opportunities for its professional staff. These activities are jointly funded by the department/center (one-third) and the College Office (two-thirds), or as negotiated. The professional staff member is expected to provide a brief written request outlining the relationship between the professional development opportunity and the enhancement of his/her assigned responsibilities. The request must be accompanied by a letter of endorsement from the applicant's supervisor. A brief report on each professional development experience is to be filed with both the department/center and the College Office.
