Physical Education Coaching

Do you enjoy engaging in physical and athletic activities? Does a teaching role involving the promotion of a positive attitude toward recreation and fitness interest you? If you answered yes to the above questions, then Physical Education may be the right major for you. Northern Michigan University offers two four-year degrees in both Physical Education and Secondary Education-Physical Education.

A Physical Education degree provides a solid foundation in the area of health, fitness, sports and recreation. Specifically, the program is designed to help students develop a strong knowledge base about the dynamics of human movement, physiology of muscular activity and the measurement and evaluation of motor performance. Students in this major also learn to develop personal skills in a variety of activities in addition to the methodology of teaching motor skills. Course work in the Physical Education programs provides students with an opportunity to participate in a variety of laboratory and field experiences.

Skills and Competencies

A degree in Physical Education focuses on the design, management, implementation, and supervision of recreational and leisure activities. The ability to relate and interact with people of varying ages and backgrounds is a valuable skill to possess in this major. Team building and teaching through leading and supervising others is also important. You can expect to be exposed to course work that will develop your written and oral communication skills in addition to providing a sound foundation in the theories and practices of this discipline. An outgoing, patient attitude as well as sensitivity to the human need for recreation and balance are attributes of someone thinking about a major in Physical Education. This curriculum at NMU prepares students for the broad professional fields of physical education, as well as for graduate studies.

Course Work

This degree includes the following courses as part of the program requirements, and specific major requirements along with general education courses and graduation requirements.

Core

- HP200 Physical Well Being (1 cr.)
- PE110 Introduction to Physical Education (2 cr.)
- PE112 Fundamental Motor Skills (2 cr.)
- PE212 Anatomical & Mechanical Assessment of Human Movement (3 cr.)
- PE213 Physiology of Sport and Fitness (3 cr.)
- PE214 Team Sports (2 cr.)
- PE300 Technology in Human Performance (3 cr.)
- PE310 Measurement and Evaluation in Physical Education (2 cr.)
- PE314 Individual and Dual Sports (2 cr.)
- PE318 Motor Learning and Secondary School Physical Education (4 cr.)
- PE322 Theory of Basketball (2 cr.) or PE223 Theory of Football (2 cr.) or PE235 Theory of Swimming (2 cr.) or PE326 Theory of Volleyball
- PE340 Principles of Coaching (2 cr.)
- PE341 Advanced Principles of Coaching (3 cr.)
- PE346 Adapted Physical Education (2 cr.)
- ES470 Psychological Aspects of Athletic Performance (3 cr.)

Minor (20 cr.)

Detailed course descriptions can be found at www.nmu.edu/bulletin.

Career Development

You should begin the resume-building process as soon as you can. The Academic and Career Advisement Center can assist you with career planning, while Career Services will help you fine tune your resume and look for jobs related to your field. In the meantime, the more hands-on experience you have, the better the chances are that you will find a job. Becoming involved in a professional related internship is a way to develop your professional skills and gain experience. Your academic course work is important as well, so be sure to maintain a high grade point average.

Additional Considerations

Teacher certification is required for employment in public schools. A Master’s Degree may be necessary for employment in college.

Obtaining an internship or part-time employment in these areas will make you more marketable when seeking a job after graduation.

Remember to take any necessary entrance exams early; it can take up to six weeks for results to be sent to the schools to which you applied.

Job Outlook

With the continued interest in health and fitness, physical education graduates should have a solid market to enter. Jobs working either as a personal trainer or as an athletic coordinator at a health club or community center should provide jobs in the coming years. The median salary for physical education careers should be in the upper half of the $20,00 to $30,000 range.
Physical Education Coaching Program prepares students for employment in the following careers:

- Athletic Clubs
- Coaching Departments
- Community Fitness/Recreation Centers
- Corporate Fitness Program
- Exercise Physiologist
- Health Clubs
- Recreational Therapy
- Rehabilitation Centers
- Resort Activity Programs
- Sports Associations
- Summer Camps
- YMCA/YWCA
