*Special instructions for multiple rates of pay for the same position number
Some student employees may need multiple rates of pay for the same position number depending on the type of job they are performing for a given shift. For example, a student employee may receive a higher rate of pay when they are acting as the shift supervisor. An EPAF will need to be created for each different rate of pay that the employee will need to have for the same position number. To distinguish the different rates of pay you will enter a different suffix number in step 3.b. starting with “01,” “02,” “03,” etc. We highly recommend the Title field be used to describe the different jobs so the student will know when punching in and entering time through UltraWeb which job to choose.
